

Your energy bill

Message Center

This bill reflects BPU approved changes, effective September 1, 2018, to the Supply and Delivery portions of your electric bill. The change in the Supply portion is the result of an increase in transmission charges if you receive PSE&G's Basic Generation Service (BGS). The change in the Delivery portion is the result of an increase in the Electric Base Rates due to Energy Strong investments. Due to these changes, a typical residential customer who purchases supply from PSE&G, and uses 750 kilowatt-hours in a summer month and 7,200 kilowatt-hours annually, will see an annual increase of \$18.92 or approximately 1.56%. Tariff information may also be found by visiting pseg.com.
